About MHS GENESIS

MHS GENESIS is the Department of Defense's new electronic health record. When fully deployed, MHS GENESIS will provide the DOD's 9.6 million beneficiaries and 205,000 medical providers with a single, integrated health record across the continuum of care – deployed and at home and eventually, through the transition to the [Department of Veterans Affairs](#).

- MHS GENESIS is deploying in 23 "waves" across the Military Health System with full deployment anticipated at the end of calendar year 2023. MHS GENESIS is currently operational at 92 [military hospitals and clinics](#).
- In 2022, MHS GENESIS deployed to eight waves at 45 military hospitals and clinics in Arkansas, Oklahoma, Texas, New Mexico, Louisiana, Florida, Alabama, Mississippi, South Carolina, North Carolina and Georgia.
- In 2023, MHS GENESIS will deploy to 46 military hospitals and clinics in nine waves in Delaware, Massachusetts, Virginia, New Jersey, New York, Rhode Island and numerous installations overseas.

About the MHS GENESIS Patient Portal

The MHS GENESIS Patient Portal is a secure website for 24/7 access to your health information, including managing appointments and exchanging messages with your care team. The new patient portal is launching at sites as MHS GENESIS deploys, replacing the TRICARE Online Secure Patient Portal.

To access the MHS GENESIS Patient Portal:

- Go to the [MHS GENESIS Patient Portal](#)

Usability Lab

- Log in using your DS Logon

Questions about the DS Logon?

- Visit the [MilConnect Website](https://milconnect.dmdc.osd.mil)
- Contact the Defense Manpower Data Center at 1-800-538-9552

Note: When using a non-Department of Defense (DOD) computer, you may receive an error message. Click "Proceed" or "Continue" to access the MHS GENESIS Patient Portal. Although you receive the error message, your MHS GENESIS Patient Portal is secure.
